## OFFICE COMMUNICATION

### *Response to Amendment*

1. The reply filed on 10/01/2004 is not fully responsive to the prior Office Action because amendments to the claims have changed the scope of the claims. For example, limitations: “at least one heat dissipating fans assembled to an identical lateral sides of the said heatsinks” originally recited in independent claim 1, are now omitted from independent claim 8 (written instead of cancelled claim 1). There is no limitations directed to the placement of the fan are present in claim 8.

The claims have been provisionally allowed on the merits over the art of record in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213 and based on all limitations as originally present in the claims.

It had been explicitly stated in paragraph 6 of the outstanding *Ex parte Quayle* Office action, that no amendments affecting the scope of the claims should be made.

It had been also stated in paragraph 5 of the aforementioned Office action that “the aforementioned limitations in combination with all remaining limitations of claim 1 are believed to render said claim 1 and all claims dependent thereon patentable over the art of record”.

2. Since the period for reply set forth in the prior Office action has expired, this application will become abandoned unless Applicant corrects the deficiency and obtains an extension of time under 37 CFR 1.136(a).

The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. In no case may an Applicant reply outside the SIX (6) MONTH statutory period or obtain an extension for more than FIVE (5) MONTHS beyond the date for reply set forth in an Office action. A fully responsive reply must be timely filed to avoid abandonment of this application.
